MARLIN HITCHPRO

Components
Marlin Hitch Pro cover (blue)
Insertable tow ball locator lozenge (silver)
Chrome barrel lock
Keys x2

Thank you for purchasing the Marlin Hitch Pro. Your caravan deserves the best protection, and this heavy-duty hitch lock delivers exactly that. Made from robust carbon steel, it is designed to deter thieves and provide long-lasting security. Sold Secure Gold standard, it meets trusted safety standards, so you can feel confident leaving your caravan unattended.

Instructions for Use

1. Unpack Carefully – Remove all packaging and check that all components are included and undamaged.
2. Line up the tow ball lozenge along your AL-KO stabiliser pointing the two locating lugs towards the front.
3. Centre the tow ball lozenge and insert into the AL-KO Hitch using the two side lugs as a guide.
4. Push down the stabiliser arm as you would do when connecting to your caravan, when fully engaged slide the blue Marlin cover on and locate in the front lugs.
5. Line up the lock barrel (Silver) and the lock retaining housing (Blue) and slide the barrel lock into place.
6. Slide the lock retention keep into the other side making sure that the lock barrel and the keep are aligned.
7. Once the keep and the locking barrel are aligned, turn the key to lock both the lock and barrel together.
8. **NOTE:** Please ensure that you lubricate the lock at regular intervals to ensure long and maintenance free usage.
