

Water Resistant Campervan Cover

Intention For Use

Thank you for purchasing this Water Resistant Campervan Cover from Leisurewize. This campervan cover is intended to be used to protect your campervan from dirt, grime, bird droppings etc. This heavy-duty, 4-ply non-woven polypropylene fabric cover withstands UV and resists water while remaining breathable, providing exceptional protection against the elements.

Before fitting your cover over your campervan, we highly recommend that you read through all the information in this document.

Product Elements

1. Campervan Cover
 2. Storage bag
-

Important

- Do not fit the cover in windy conditions.
 - Do not use your campervan's heating system or any other appliance with the cover fitted.
 - Do not drive your campervan with the cover fitted.
 - When opening and closing a zip, ensure the cover is straight and not tight. This prevents strain and possible failure of the zip.
 - Do not over-tension straps. This could damage your cover.
 - During long-term storage, regularly clean the vehicle's exterior to prevent mould growth.
-

Before Fitting Your Cover

- Remove or cover sharp or fragile objects (such as aerials, wing mirrors, and ladders) on the exterior of your motorhome to prevent damage to them and the cover.
- Close all windows and ensure the roof is in the closed position.
- Ensure fridges, heaters, and any other appliances and vented items are turned off.
- Ensure your campervan's handbrake is applied.
- To prevent scratching, your campervan must be clean and free of loose dirt.
- We recommend that your campervan is dry before fitting your cover.
- Do not fit the cover in gale-force winds.

Installation Instructions

TIP: As the cover is large, heavy, and needs careful placement, we recommend two people and stepladders or another stable platform.

WARNING: Take extra care when using a stepladder or platform as you'll be working from a height. You should not attempt to fit the cover from the stepladder; it's for positioning and passing over only.

1. Open the cover. The front section is identified with a "FRONT" label.
2. Starting from the front and working towards the rear, lift the cover over the roof and all protruding objects.
3. Adjust the cover's position until you have an even fit.
4. Secure the sides of the cover with the straps provided. Pass each strap under your campervan and secure it with the corresponding buckle on the opposite side.
5. Adjust all straps to ensure a secure fit.

Care of Your Cover

- Do not machine wash or tumble dry the cover.
- Remove dirt with a sponge and warm water. Do not use detergent.
- Do not expose the cover to sparks, flames, or other sources of ignition.
- Ensure your cover is dry before storing it in the bag provided.
