

SWMAT1

Inflatable Car Mattress

Fig 1.

INFORMATION FOR USE

Thank you for purchasing this Inflatable Backseat Car Mattress from Streetwize. This product is intended for sleeping one person in your car's back seat. It comes with two inflatable pillows as well as an inflatable support base that is placed in your vehicle's foot wells.

To get best use of this product, we recommend that you read all the information and health & safety guidelines in this document.

PRODUCT ELEMENTS

1	Inflatable backseat car mattress	4	12V inflator/deflator pump	7	Carry bag
2	Inflatable pillows (x2)	5	3-in-1 valve		
3	Inflatable support base	6	Repair kit		

12V INFLATOR/DEFLATOR PUMP INSTRUCTIONS

The air mattress & pillows and support base can all be inflated with the provided 12V inflator/deflator pump (Fig 1).

Ensure you use the correct valve attachment for the component you want to inflate. Also, please ensure you use the inflation outlet on the pump (Fig 2).

To commence inflation, connect the pump to your vehicle's 12V socket and start your vehicle. Then ensure the pump is properly connected to the air valve and switch on the pump.

Inflate all components until they are firm.

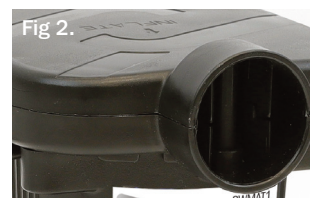

Fig 2.

PLACING THE MATTRESS IN YOUR VEHICLE

When placing the air mattress in a vehicle, move the front seat forward as far as they will go. Place the support base in the footwells between the rear and front seats. Then position the air mattress into your vehicle, followed by the pillows.

DEFLATION INSTRUCTIONS

To deflate the air mattress, attach the appropriate valve attachment to the deflator inlet. Connect the pump to your 12V socket as before then switch on the pump to begin deflation. For deflating the pillows, please deflate the pillows by hand.

PACKING/STORING THE AIR MATTRESS

When packing & storing the air mattress and its inflatable components, always fold and place back into the supplied carry bag with the valves open. This allows for any excess air inside the inflatable to come out.

REPAIRS

This product comes with a repair kit. This kit is ideal for repairing small punctures. The kit includes 2 small patches and a plastic straw.

To repair the small punctures, please see the instructions below.

Inflate the mattress or one of the pillows to locate the puncture.

Once located, clean the area with a suitable cleaning solution

Using the plastic straw, apply heat (i.e. a gas hob lighter) to melt one end of the straw. Then, apply the melted plastic over the puncture to seal it.

Allow for the plastic to dry and cool, then clean with a suitable cleaning solution.

The small patches are suitable for covering slightly larger punctures. For this, you will need a strong adhesive like super glue (not included) to bond the patch.

TECHNICAL SUPPORT

If you require any technical support, please contact us on support@streetwizeaccessories.com and provide the product name and supplier code (see Technical Specifications) along with the technical query and proof of purchase.
