

12V Heating & Cooling **Car Seat Cushion**

Thank you for purchasing this 12V Heating & Cooling Car Seat Cushion from Streetwize. This car seat cushion is intended for use inside a vehicle on either the front driver or passenger seat. Its dual-action functionality allows it to provide either a cooling or warming effect, making it suitable for all year round use.

This car seat cushion is universal in design and will fit most vehicle's driver's seat and front passenger's seat, as long as the vehicle has an accessible 12V socket. This includes hatchbacks, estates, saloons, MPVs, 4x4s, SUV, lorries, trucks and more.

BEFORE USING THIS PRODUCT, WE HIGHLY RECOMMEND THAT YOU READ ALL THE INFORMATION IN THIS MANUAL. PLEASE KEEP THIS DOCUMENT FOR FUTURE REFERENCE.

Product Elements

- Streetwize 12V Heating & Cooling Car Seat Cushion
- 12V power cable

Installation Instructions

The seat cushion is simple to fit.

On the reverse side of the seat cushion, you will find a quick release buckle strap near the top, which is to be secured to your vehicle's headrest, and another quick release buckle strap in the middle to be secured around the back of your vehicle's seat.

As for the two hook straps on either side of the ventilator fan, situated at the reverse side of the cushion at the bottom, these should be secured onto a railing underneath the vehicle seat.

Operating Instructions

To operate the car seat cushion, first plug it into your vehicle's 12V socket. Then switch on your vehicle so you are able to set the seat cushion's heating or cooling settings via the control panel (Figure 1).

Fig 1

Button	Heat Button	Cool Button
First Press	High heat setting (3 LED lights)	High cool setting (3 LED lights)
Second Press	Mid heat setting (2 LED lights)	Mid cool setting (2 LED lights)
