You will need to thread your vehicle's seat belt through the hooks as per instructions below:

1. Fasten the seatbelt as shown in Figure 1. You will need to fasten the seatbelt to the clip of the opposite rear seat. This provides enough width of the seat belt.
2. To secure the pet kennel, use the kennel's two spring hooks, located on the bottom of the kennel, to secure the kennel to your vehicle's rear seatbelt. See Figure 2. Figure 3 shows kennel on the other side.

IMPORTANT: It is illegal to drive with a pet carrier/kennel that is not properly secured into your vehicle's seat. It is important that you utilise your vehicle's seat belt to secure this product in place.

When Driving With Your Pet Inside The Kennel

For the health & safety of your pet that is inside the kennel, please close and zip up all the panels before driving.

IMPORTANT: Always close and zip up all the panels of this kennel when driving with your pet inside the kennel.

After Use

Once you have finished using the product, please reverse the steps outlined in the assembly instructions. Please note, when folding the kennel, you will need to twist the kennel and press downwards to fold.
