

SWGSL221

# Bird Cage Clock

Please read and understand these instructions before any use of this product and retain for future reference.

Remove all the product packaging and dispose appropriately. Check the product is undamaged.

**Caution:** Protect from extreme weather conditions and avoid direct sunlight.

## Installing Batteries:

Place the unit face down on a clean, soft and stable surface. Remove the back plate of the battery compartment (1).

Insert 1 x AA battery (not supplied) into the battery compartment as indicated on the base of the compartment (2).

Adjust the clock to the correct time using the dial (3). The clock mechanism should now be making a ticking noise. Replace the cover if everything is working.

Select an appropriate position for the clock. There are holes on the clock for fixing to a fence/wall. Holding the clock mark the fence/wall through these holes, then drill holes and secure to the fence/wall using suitable screws (and plugs - if necessary, not supplied).

### Streetwize Accessories:

Unit 1, Royce Trading Estate, Ashburton Road West,  
Trafford Park, Manchester M17 1RY
