

SWMAT2

Inflatable SUV Mattress

Fig 1.

INFORMATION FOR USE

Thank you for purchasing this Inflatable SUV Mattress from Streetwize. This product is intended for sleeping up to 2 people in the back of an SUV with rear seat folded down, & comes with two built-in inflatable pillows.

To get best use of this product, we recommend that you read all the information and guidelines in this document, and retain for future reference.

PRODUCT ELEMENTS

- | | | | |
|---|---|---|------------|
| 1 | Inflatable SUV Mattress with built-in pillows | 4 | Repair kit |
| 2 | 12V inflator/deflator pump | 5 | Carry bag |
| 3 | 3-in-1 valve | | |

12V INFLATOR/DEFLATOR PUMP INSTRUCTIONS

The air mattress & built-in pillows can all be inflated with the 12V inflator/deflator pump provided (Fig 1).

Ensure you use the correct valve attachment for the component you are inflating. And also, please ensure you use the inflation outlet marked on the pump (Fig 2).

To commence inflation, connect the pump to your vehicle's 12V socket and start your vehicle. Then ensure the pump is properly connected to the air valve and switch on the pump.

Inflate all components until they are firm.

PLACING THE MATTRESS IN YOUR VEHICLE

When placing the air mattress in your vehicle, first fold the rear seat downwards. Then position the air SUV mattress into your vehicle.

DEFLATION INSTRUCTIONS

To deflate the air mattress, attach the appropriate valve attachment to the deflator inlet. Connect the pump to your 12V socket as before then switch on the pump to begin deflation. For deflating the pillows, please deflate the pillows by hand.

PACKING/STORING THE AIR MATTRESS

When packing & storing the air mattress and its inflatable components, always fold and place back into the supplied carry bag with the valves open. This allows for any excess air inside the inflatable to come out.

REPAIRS

This product comes with a repair kit. This kit is ideal for repairing small punctures. The kit includes 2 small patches and a plastic straw.

To repair the small punctures, please see the instructions below.

Inflate the mattress or one of the pillows to locate the puncture.

Once located, clean the area with a suitable cleaning solution

Using the plastic straw, apply heat (i.e. a gas hob lighter) to melt one end of the straw. Then, apply the melted plastic over the puncture to seal it.

Allow for the plastic to dry and cool, then clean with a suitable cleaning solution.

The small patches are suitable for covering slightly larger punctures. For this, you will need a strong adhesive like super glue (not included) to bond the patch.

TECHNICAL SUPPORT

If you require any technical support, please contact us on support@streetwizeaccessories.com and provide the product name and supplier code (see Technical Specifications) along with the technical query and proof of purchase.
