## Product Elements

- Streetwize 12V Replacement
- Information for Use

## Installation Instructions

1. Refer to your vehicle's handbook to locate where the disc horn will be situated in your vehicle's bonnet.
2. Ensure your vehicle is fully switched off and open your vehicle's bonnet.
3. Locate the faulty/old disc horn in your vehicle. Use a screwdriver to dislodge the disc horn from where it is mounted.
4. Once dislodged, carefully disconnect the wiring behind the faulty/old disc horn.
5. With the replacement disc horn, connect the wiring to the unit via the terminals located behind the horn. The red wire should go to the positive (+) terminal, and the black wire should go to the negative (-) terminal.
6. Once the wires have been connected, do a quick test with your vehicle's horn to see if it works. If not, make sure that wiring is properly connected.
7. Screw the disc horn into place, and then close your vehicle's bonnet.
