SAFETY INSTRUCTIONS

Please read and understand these instructions before attempting any use of the Power Sprayer and retain for future reference.

1. Always wear protective clothing, gloves, eye ware and mask when using chemicals.
2. Check all parts prior to use and replace worn or damaged items. Always tighten the connections before operating the equipment.
3. Avoid spraying in strong winds. If spraying in light wind conditions always spray with the wind blowing the spray away from you.
4. Always release pressure (using safety valve (1)), before refilling, servicing or storing.
5. Do not leave sprayer unattended while pressurised.
6. Chemical sprays are dangerous, if swallowed or come in contact with the skin. please always refer to the chemical supplier safety instructions or contact the poisons information centre or a doctor immediately.
7. Never allow children to operate or play with pressurised spray equipment.

Do not exceed maximum filling level - 5 Litres.

All images & and diagrams are for illustration purposes only, actual product may differ slightly in appearance.

General/Usage instructions for use.

1. Open Lid to fill.

2. Do not exceed maximum filling level 5 Litres.

3. Pump handle to generate pressure. Max 25 pumps.

4. Safety pressure relief valve will activate if max pressure is reached.

5. Use On/Off trigger to control spray.

6. Adjust Nozzle at end for either Fine Mist or Direct Spray.

7. Always release pressure when job is finished and empty bottle of excess liquid. Always wash thoroughly after using chemical sprays.

It is recommended that this power sprayer is restricted in use to water-based products and certain chemicals identified as harmful or irritant and/or carry the following labels. When using paints, stains, pesticides and other water soluble harmful substances, always observe the instructions and refer to the Safety Data Sheets of the fluids that are being used.

ADVISORY WARNING: It is recommended that this equipment is NOT used for solvent paints, VOC's and chemicals hazardous to health.

This includes any chemicals identified as Flammable, Oxidising Corrosive or Acutely Toxic and/or which carry the following symbols.

Please note:

It is essential before using your **Power Washer** to ensure that the Tab (A) is firmly secured under the Lip (B), see diagram.

To secure, push down the handle (if required) twist the Tab (A) using the handle in the direction of the arrow until it is fully secured under the lip (B)
