Insect Killer

Please read these instructions carefully before operating this Insect Killer and retain for future reference.

Instruction manual

Destroys flying insects, such as mosquitoes, lawn moths, bugs, flies, wasps, gnats, etc.

The electronic insect killer utilizes specific wave length of the light spectrum, proven the most effective lure for flying insects day or night to form a practical, efficient, hygienic and automatic electronic insect extermination system.

Just plug the insect killer into an AC outlet; nearby flying insects will be attracted to the ultraviolet light tube and fly towards its electrically charged metal grids and to their electrocution.

No chemicals, no fumes, no smell, no sprays, no mess, no trouble!

Economical: High efficiency with low consumption. Only costs about 3 watt (depend on models) of electricity in operation. No insecticides or chemicals needed.

Suggestion for optimised performance: Hang the unit at approx. 1.8 meters (6 feet) high for the best efficiency.

Power supply: AC 230V 50/60Hz
 Output current: > 550V- 600V DC
 Consumption power: 3W
 Dimension: ø 135 mm X 270mm

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.

Warnings for use:

- Suitable for indoor use only.
- Do not use in barns, stables or similar locations.
- The appliance is to be kept out of reach of children.
- The appliance is not to be used in locations where flammable vapour or explosive dust is likely to exist.

 **DANGER: High voltage**

Cleaning:

1. Always unplug the appliance from the socket before cleaning. Unscrew the base to remove the tray.
2. Clean out the tray at the bottom once a week with a soft non-abrasive cloth. Carefully use a brush to clean out any remaining insects.
3. Clean the appliance once a month with a soft non-abrasive cloth, never use water or chemicals.

WARNING: The lamps in this appliance cannot be replaced. Scrap the appliance when the lamps cease to operate.
