

Streetwize Water-Resistant Breathable Car Covers

Fitting Instructions:

Place cover onto the vehicle and secure with elastic hem under front bumper, pull cover over the vehicle and secure under the rear bumper.

Fitting Guidelines:

- DO NOT fit to a wet vehicle
- DO NOT use on vintage cars or cars more than 20 years old
- Always fit the cover after the vehicle has cooled down
- Ensure all aerials are fully retracted to avoid tears
- When using over a long period, we recommend placing an additional sheet/cloth under the cover

Measuring Advice:

- Please measure vehicle with wing mirrors pushed in
- Height is best measured from the chassis of the car, not from the floor
- Please ensure the cover you buy allows at least 10cm (4") extra to allow for aerials, creases, folded wing mirrors and other factors
- Where a vehicle is between sizes, we advise to purchase the larger, rather than smaller

*Please note that water-resistant means the cover is able to resist the penetration of water to some degree but not entirely. The cover is not water-proof.

SKU	Centimetres	Metres	Inches	Guideline of suitable car models	Material
SWBCCS	420 x 165 x 119	4.1 x 1.65 x 1.19	161 x 65 x 47	<ul style="list-style-type: none"> • Smart Car • Fiat 500 • Peugeot 108 • Citroen C1 • Kia Picante • Renault Twingo (and similar) 	90g non-woven polypropylene
