Intention for Use

This product is intended for ONLY holding smartphones only between the width of 49mm to 82mm. This gadget holder can be mounted in three different ways: vent clip - mount, dashboard adhesive mount & windscreen suction mount.

To get the best use of this product, we advise that you read all information in this document.

Product Elements

1. Streetwize Universal Car Smartphone Holder (with attached suction mount)
2. Adhesive pad for dashboard mount
3. Vent-clip mount

Mounting the gadget holder

As mentioned, this product can be mounted in three different ways. Please follow the instructions for your preferred mounting option.

1. Windscreen Suction Mount

The windscreen suction mount option already comes attached out-of-the-box. To use this option, simply unfold the gadget holder as shown in (Fig 1).

Mount the suction cup to your windscreen. Ensure the gadget holder is unfolding towards you and not facing downwards towards the windscreen. Secure the suction mount in place by turning the knob behind the suction cup clockwise (Fig 2).

Then place your phone into the adjustable grip (Fig 3). The support arms are spring loaded, simply pull apart to the required width for the phone, adjust the angle to your requirements. With the suction mount, you can rotate the device to view the device either horizontally or vertically.

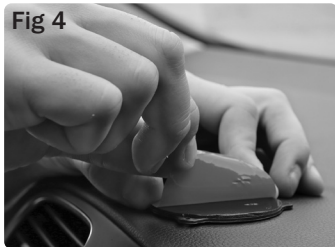

To remove the suction mount from your windscreen, simply turn the knob anti-clockwise and pull one of the tabs on the suction cup.

2. Dashboard Adhesive Mount

To mount the gadget holder to your dashboard, get the supplied adhesive pad (Fig 4), peel off the red adhesive film and then fix it to your dashboard. For added security screw into place via the three screw holes (screws NOT included).

Use the suction mount to secure the gadget holder onto the dashboard pad. Secure the suction mount in place by turning the knob behind the suction cup clockwise (Fig 5- A).

Then place your phone into the adjustable grip. Adjust the angle to

your requirements. With the suction mount, you can rotate the device to view the device either horizontally or vertically.

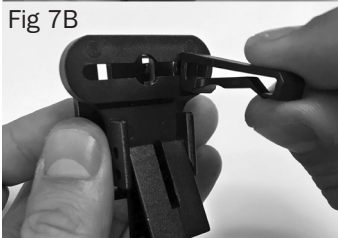

3. Vent-Mount Clip:

Please note, the phone holder will not rotate when using the vent-clip.

You will need to remove the suction cup mount from the phone holder. Hold the device as per (Fig 6) and position your thumbs behind the adjustable arm of the holder. push your thumbs forward until you hear a click, the suction cup can now be removed.

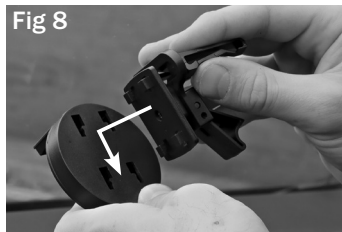

Assemble the vent clip by positioning the vent grips (3) on the front cover as shown in (Fig 7A). Simply place the attachment end of the vent clip through the hole in the middle and slide either left or right (Fig 7B).

Then attach the vent clip to the gadget holder (Fig 8).

Using the vent-mount clip, place the gadget holder on to your vehicle's vent. Ensure the vent clip is secured around the vent bars and the hinged bottom support should be secured into one of the vent bars at the bottom as shown in (Fig 9).

Mount your phone horizontally.
